

About Radio XL5

Welcome to Radio XL5! The Nation's Hit Music Station! Smart Hits for Your Smart Phone! #SHYSP

We are broadcasting to the USA and the world from the home of the American Revolution: BOSTON!

We play Today's Hits, the 2K's, the 90's and the new oldies, The 80's!

We really try to program Radio XL5 with a positive and encouraging playlist. To say the least we love what we do!

We do Today's Hit Music! Say "bye bye" to the corporate suits who think a playlist of 300 to 400 songs. We love new artists! New music and we will play it if you send it!

At Radio XL5 we have a passion for radio as it once was but with a modern twist to keep you engaged, entertained and informed. We take our stream quality and legal requirements responsibility seriously; that is why we broadcast using the servers of Shoutcaststreaming.us and report using services of Streamlicensing.com. StreamLicensing audits our stream and collects the proper music royalties.

We believe in keeping you informed about non-profit organizations via our commitment to running short Public Service Announcements (PSAs) for causes that we feel make our lives better by helping others and giving them a hand-up. Such organizations as Habitat for Humanity, Wounded Warriors Project & The Wounded Walk for our veterans, environmental reminders, our spots on behalf of Feeding America and the Epilepsy Foundation Of America to name a few, are featured in these various hourly PSA breaks. If you have a non-profit organization you want our listeners to know about then let us know about it! We are in this world together and if Radio XL5 can help we will do our best.
